

Liri Bot Application

Author: Alejandro R. López Ávila

Coding Bootcamp ITESM

Root directory:

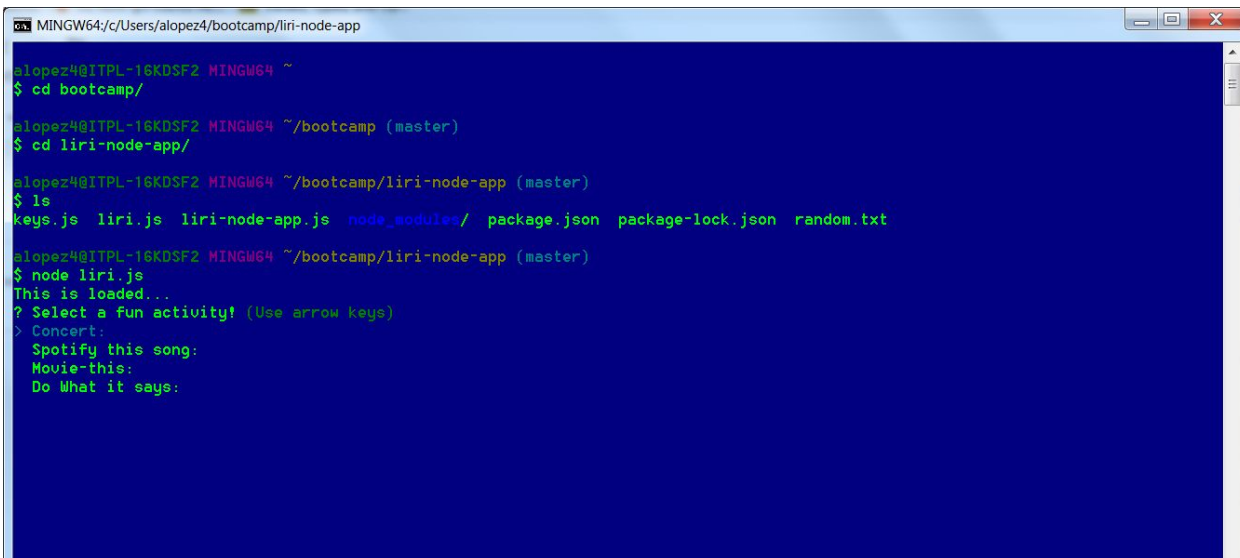

```
MINGW64/c/Users/alopez4/bootcamp/liri-node-app
alopez4@ITPL-16KDSF2 MINGW64 ~
$ cd bootcamp/

alopez4@ITPL-16KDSF2 MINGW64 ~/bootcamp (master)
$ cd liri-node-app/

alopez4@ITPL-16KDSF2 MINGW64 ~/bootcamp/liri-node-app (master)
$ ls
keys.js  liri.js  liri-node-app.js  node_modules/  package.json  package-lock.json  random.txt

alopez4@ITPL-16KDSF2 MINGW64 ~/bootcamp/liri-node-app (master)
$
```

I made a little variation respect instruction, show a list of options so one could be chosen by user

```
MINGW64/c/Users/alopez4/bootcamp/liri-node-app
alopez4@ITPL-16KDSF2 MINGW64 ~
$ cd bootcamp/

alopez4@ITPL-16KDSF2 MINGW64 ~/bootcamp (master)
$ cd liri-node-app/

alopez4@ITPL-16KDSF2 MINGW64 ~/bootcamp/liri-node-app (master)
$ ls
keys.js  liri.js  liri-node-app.js  node_modules/  package.json  package-lock.json  random.txt

alopez4@ITPL-16KDSF2 MINGW64 ~/bootcamp/liri-node-app (master)
$ node liri.js
This is loaded...
? Select a fun activity! (Use arrow keys)
> Concert:
  Spotify this song:
  Movie-this:
  Do What it says:
```

So user, selects an option and type in what to search for, in this case:

Option 1) Concert

```
MINGW64/c/Users/alopez4/bootcamp/liri-node-app
alopez4@ITPL-16KDSF2 MINGW64 ~
$ cd bootcamp/

alopez4@ITPL-16KDSF2 MINGW64 ~/bootcamp (master)
$ cd liri-node-app/

alopez4@ITPL-16KDSF2 MINGW64 ~/bootcamp/liri-node-app (master)
$ ls
keys.js  liri.js  liri-node-app.js  node_modules/  package.json  package-lock.json  random.txt

alopez4@ITPL-16KDSF2 MINGW64 ~/bootcamp/liri-node-app (master)
$ node liri.js
This is loaded...
? Select a fun activity! Concert:
? So, what do you want I search for: Foo fighters
```

Program executes BandsinTown API and gets a response.

Option 2) Spotify this song:

```
MINGW64/c/Users/alopez4/bootcamp/liri-node-app
alopez4@ITPL-16KDSF2 MINGW64 ~/bootcamp/liri-node-app (master)
$ node liri.js
This is loaded...
? Select a fun activity!
  Concert:
> Spotify this song:
  Movie-this:
  Do What it says:
```

User indicates what search:

```
MINGW64/c/Users/alopez4/bootcamp/liri-node-app
alopez4@ITPL-16KDSF2 MINGW64 ~/bootcamp/liri-node-app (master)
$ node liri.js
This is loaded...
? Select a fun activity! Spotify this song:
? So, what do you want I search for: Everlong
<<<< Here's your result # 1 : >>>>

Artist: Foo Fighters
Album: The Colour And The Shape
Song: Everlong
Spotify Link: https://open.spotify.com/track/5UWwZ51m5PKu6eKsHAGx0k

<<<< Here's your result # 2 : >>>>

Artist: Foo Fighters
Album: Greatest Hits
Song: Everlong - Acoustic Version
Spotify Link: https://open.spotify.com/track/3QmeervdbPjwf7i40nht1D

<<<< Here's your result # 3 : >>>>

Artist: Mica Goldberg
Album: Mica Goldberg
Song: Everlong
Spotify Link: https://open.spotify.com/track/7b2KEydUnR1F7PLCMR4QuI

<<<< Here's your result # 4 : >>>>

Artist: Foo Fighters
Album: Greatest Hits
Song: Everlong
Spotify Link: https://open.spotify.com/track/07q6QTQyPRCf7GbLakRPr

<<<< Here's your result # 5 : >>>>

Artist: Emile Beskow
Album: Classics
Song: Everlong
```

Option 3) Movie this:

```
MINGW64/c/Users/alopez4/bootcamp/liri-node-app
alopez4@ITPL-16KDSF2 MINGW64 ~/bootcamp/liri-node-app (master)
$ node liri.js
This is loaded...
? Select a fun activity!
  Concert:
    Spotify this song:
> Movie-this:
  Do What it says:
```

After type in the movie to search:

```
MINGW64/c/Users/alopez4/bootcamp/liri-node-app  
alopez4@ITPL-16KDSF2 MINGW64 ~/bootcamp/liri-node-app (master)  
$ node liri.js  
This is loaded...  
? Select a fun activity! Movie-this:  
? So, what do you want I search for: Babe  
  
x-x-x-x-x-x- MOVIE'S INFORMATION -x-x-x-x-x-x-  
  
Title: Babe  
  
Year : 1995  
  
IMBD rating : 6.7  
  
Rotten tomatoes rating : N/A  
  
Country : Australia, USA  
  
Language : English  
  
Plot : Babe, a pig raised by sheepdogs, learns to herd sheep with a little help from Farmer Hoggett.  
  
Cast : Christine Cavanaugh, Miriam Margolyes, Danny Mann, Hugo Weaving  
  
x-x-x-x-x-x-x-x-x-x-x-x-x-x-x-x-x-x-x-x-x-x-x
```

Also in case the user does not indicate a search option, function will take default value

Option 4) Do what it says, take info from a file and executes command in it.

```
MINGW64/c/Users/alopez4/bootcamp/liri-node-app
alopez4@ITPL-16KDSF2 MINGW64 ~/bootcamp/liri-node-app (master)
$ node liri.js
This is loaded...
? Select a fun activity!
  Concert:
    Spotify this song:
    Movie-this:
> Do What it says:
```

So this is the result of that command

```
MINGW64/c/Users/alopez4/bootcamp/liri-node-app
alopez4@ITPL-16KDSF2 MINGW64 ~/bootcamp/liri-node-app (master)
$ node liri.js
This is loaded...
? Select a fun activity! Do What it says:
? So, what do you want I search for:
<<<< Here's your result # 1 : >>>>
